Enhance West Van proudly presents: *The Post Pandemic Pivot: Dive into the Future of a Post Pandemic World.*

This Forum for Dialogue and Learning examines the inevitable shifts to take place in our post-pandemic reality and how we can help people transition back to an in-person way of life. We will explore mental health and social re-connection, the potential shifts in the business world, and the reality of the leisure and entertainment industry.

The event includes presentations and a Q&A panel discussion with local professionals in the field.
