

Together we're making
your Community Centre
even better.

Community Engagement and Outreach Committee

The Community Engagement and Outreach Committee is the largest committee with a focus on engaging community residents and users of the Community Centre by providing opportunities to directly influence the programs, services and activities taking place at the Centre through liaising with the community. This Committee consists of both Board members and others volunteer members from the Society Membership. The Committee also leads the Society's preparations for the annual Forums on Dialogue and Learning, which feature an extraordinary panel of world-leading experts discussing topics of direct relevance to West Vancouver and the North Shore.
